Support the Just Like Us Community Resource Depot and you achieve what seems beyond the realm of possibility in this harsh economy: you provide employment for people who, in turn, provide vital resources for those reentering the workforce on the road to Self Sufficiency.

For the past nine years, The Just Like Us Family Enrichment Center has run an innovative program for those reentering the Cleveland area from prison. We are a 501(c)(3) agency that offers our clients assistance with job placement, family relationship building, and financial planning with an emphasis on self-sufficiency. Sometime after the first of the year, we plan to open a Community Resource Depot that will employ six people and will provide hygiene products, work clothing, and other needed items in partnership with The Ohio Benefit Bank. The Depot will also feature a laundry that will wash, fold, and package clothing for a small fee for those enrolled in our job placement program.

To ensure the successful implementation of the Community Resource Depot, we are initiating a two-year campaign for community support which will begin the week of January 04, 2010. To those who help make the Depot a reality, we will dedicate a wall inside the facility with the names of **“Our Partners”**-- the individual, business, or organization who has contributed to enhancing the safety and economic development in the Greater Cleveland area.

We thank you for your support and cooperation!

Sincerely,

Marc G. Crosby
Executive Director/Programs

Mission

To strengthen families by empowering individuals reentering communities toward self-sufficiency through innovative, prevention, training, education and supportive services.
